Accessing Webmail

Summary :

This tutorial is to show you how to login to your webmail with us.
This applies to clients who are hosting with us.

WEBSITED

Step 1 :

To login, first type this into the top of your browser...

1. <http://control.yourdomain.co.za>
(please change 'yourdomain' to the domain you have registered with us)

You will then see this screen

Step 2 :

Select Webmail.

Log in using your email address as username and your email password as the password. (Ask the support department for this detail)

Once in you'll see this.

Step 3 :

You can view your mail like this off of any PC with internet.

Just be sure to logout once you're done to stop other people viewing your mail.
